has participated in the following openHPI course:

Human-Centered Design: From Synthesis to Creative Ideas

by Mana Taheri, Karen von Schmieden, Lena Mayer

The course covered the following topics:

- The basics of design synthesis and creative idea generation
- The fundamentals of sorting design research data, extracting user needs, and reframing design problems
- The fundamentals of preparing and facilitating a brainstorming session (including the application of various brainstorming and idea selection techniques)

The participant qualified for this confirmation by accessing more than 50% of all learning material.
